SOC 2 Type II Report Summary

Service organization: Nimbus Notes AI (fictional).

Independent auditor: Halvorsen & Pike LLP (fictional firm).

Review period: 1 July 2025 to 30 June 2026. Trust services criteria: Security, Confidentiality, Privacy.

Auditor's opinion (summary)

In our opinion, controls were suitably designed and operated effectively throughout the review period, except as noted. No exceptions were noted for the controls summarized in this document.

System description

Nimbus Notes AI provides meeting transcription and summaries for business customers. Customer audio and transcripts are processed in a single cloud region.

Access control, awareness and development

All administrative access requires single sign-on with phishing-resistant MFA. No exceptions noted.

User access is reviewed quarterly. No exceptions noted.

All staff complete security awareness training annually. No exceptions noted.

Every code change requires peer review before release. No exceptions noted.

Encryption, subprocessors and privacy

Customer data is encrypted at rest with AES-256 and in transit with TLS 1.2 or higher. No exceptions noted.

A subprocessor list is maintained and each subprocessor is assessed annually. No exceptions noted.

A privacy notice is published and data subject requests are tracked to completion. No exceptions noted.

Out of scope: vulnerability management, logging retention, business continuity testing and AI model governance were not examined.
